# COSMETOLOGY

A career preparation program designed to provide related instruction and practical experience.

## WHAT DOES THE PROGRAM PREPARE ME TO DO?

*Cosmetologists* primarily shampoo, cut, and style hair, but they also provide a number of other services. These workers, who are often called hairstylists, may advise patrons on how to care for their hair, straighten or permanent wave a customer's hair, or lighten or darken hair color. In addition, most cosmetologists are trained to give manicures, pedicures, and scalp treatments; provide makeup analysis for women; and clean and style wigs and hairpieces.

In addition to their work with customers, cosmetologists are expected to keep their work area clean and their hairdressing implements sanitized. They may make appointments and keep records of hair color and permanent wave formulas used by their regular patrons.

Good health and stamina are important because these workers usually have to be on their feet for most of their shift.

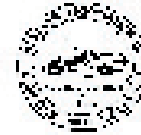

Most full-time cosmetologists work 40 hours a week, but long hours are common in this occupation, especially among self-employed workers. This often includes evenings and weekends, when beauty salons are the busiest.

Acquiring the right "look" has never been easy. It requires that perfect hairstyle, exquisite nails, a neatly trimmed beard, or the proper make-up to accent your coloring. People rely on their cosmetologist to give them styles that are suited to their individual characteristics. Although tastes and fashions change from year to year, the basic job of cosmetologists remains the same—to help people look their best.

## STUDENT OUTCOMES

Upon successful completion of an ROP course, each student will:

- ❖ Demonstrate occupational specific, communication and critical thinking skills
- ❖ Demonstrate responsible work ethics
- ❖ Demonstrate career/employment literacy
- ❖ Demonstrate effective use of technology

## EMPLOYMENT OUTLOOK

Overall employment of cosmetologists is expected to grow. Population growth, rising incomes, and a growing demand for the services that they provide will stimulate the demand for these workers.

Many job openings will become available in the cosmetology field due to the large size of the occupation and the expected employment growth. This is especially true for entry-level workers who are licensed to provide a broad range of cosmetology services. The number of part-time and self-employed, booth-renting cosmetologists should continue to grow, creating many opportunities for ambitious people to enter the field.

Advancement usually is in the form of higher earnings as cosmetologists gain experience and build a steady clientele. Some cosmetologists manage large salons or open their own after several years of experience.

## ROP TEACHERS

ROP teachers know the job market, have business and industry experience within the field they teach and are credentialed. **LEARN FROM THE BEST WITH ROP TEACHERS.**
